

Prior to recommencing work all contractors are required to develop and post at each job site a comprehensive COVID-19 exposure control, mitigation, and recovery plan. The plan must include policies regarding the following control measures:

- **COVID-19 Site Supervisor**
 - For sites wherever there are 7 or more people onsite.
 - Role: monitor the health of employees and enforce the COVID-19 job site safety plan.
 - Must be onsite at all times during construction activities.
- **COVID-19 Safety Training**
 - Must be conducted on the first day returning to work, then weekly thereafter.
 - Safety requirements shall be visibly posted on site
 - Exposure response procedures
 - Post-exposure incident project wide recovery plan
 - Incident reporting
 - Site decontamination procedures
- **Social Distancing**
 - Social distancing of at least 6 feet of separation must be maintained by every person on the worksite at all times.
 - Identify “choke points” and “high-risk areas” on job sites where workers typically congregate and control them so social distancing is always maintained.
 - Minimize interactions when picking up or delivering equipment or materials, ensure minimum 6- foot separation.
- **Personal Protective Equipment**
 - Provide personal protective equipment (PPE) such as gloves, goggles, face shields and face masks as appropriate, or required, for the activity being performed.
 - PPE must be worn AT ALL TIMES.
 - Masks, in accordance with Washington Department of Health [guidelines](#) must be worn at all times by every employee on the worksite.
- **Sanitation/Cleaning**
 - Soap and running water shall be abundantly provided on all job sites for frequent handwashing.
 - Post, in areas visible to all workers, required hygienic practices, including not to touch face with unwashed hands or with gloves; washing hands often with soap and water for at least 20 seconds; use hand sanitizer with at least 60% alcohol; cleaning and disinfecting frequently touched objects and surfaces
- **Employee Health/Symptoms**
 - If employees have symptoms of acute respiratory illness (i.e. fever, cough, shortness of breath), they must stay home and not come to work until free of symptoms for at least 72 hours, without the use of medicine. Employees shall be instructed to call their healthcare provider.
 - Ask workers to self-identify symptoms of fever, coughing, or shortness of breatheach day, before the shift, mid-shift, and at home. If thermometers are used on the job, they shall be ‘no touch’ or ‘no contact.
- **Job Site Visitor Log**
 - A daily attendance log (add link to LOG) of all workers and visitors must be kept and retained for at least four weeks.

Additional information can be found in the [Phase I Construction Restart COVID-19 Job Site Requirements](#).
